Accenture Packaged App Development Analyst and Computer Science graduate with previous software engineering experience at Amazon, developing and testing React and TypeScript features within a large production codebase. Experienced in building full-stack and real-time applications using Node.js, PostgreSQL, AWS and Docker.

EXPERIENCE

Accenture

Packaged App Development Analyst

Dublin, Ireland

Sept 2026 - Present

- Completed client-focused consulting and technical training, collaborating with colleagues to analyse business requirements and develop practical technology solutions.
- Worked within an Agile Scrum team and took on Scrum Master responsibilities, facilitating stand-ups, coordinating sprint activities and supporting effective team delivery.

Amazon

Software Engineer Intern

Dublin, Ireland

Jan 2025 – Jul 2025

- Developed a dashboard-tagging feature using React, TypeScript and AWS Cloudscape, allowing customers to organise and categorise dashboards.
- Built two reusable UI components and integrated them with existing backend APIs while following Amazon engineering and accessibility standards.
- Validated the feature through unit, integration, end-to-end and manual testing, resolving defects ahead of its planned production release.
- Contributed through sprint planning, technical design discussions, code reviews and cross-team collaboration within a large production codebase.

PROJECTS

IzRosh – [izrosh.com](#)

Full-Stack Developer & Project Lead

Dublin, Ireland

Aug 2026 – Present

- Led a three-person team in developing an e-commerce platform featuring customer accounts, a beat marketplace, session bookings and an administration portal.
- Built secure purchasing and fulfillment workflows using React, TypeScript, Express, PostgreSQL, Prisma, Redis and Stripe.

Dan & Dave Web Services – [dandaveweb services.ie](#)

Co-Founder & Full-Stack Developer

Dublin, Ireland

Jun 2026 – Present

- Co-founded an Irish web-development business providing modern websites, client demos and ongoing support packages for trades and local service businesses.
- Developed responsive client websites and an internal lead-management dashboard supporting contact tracking and outreach workflows.

Minglr – [minglr.live](#)

Co-Founder & Full-Stack Developer

Dublin, Ireland

Mar 2026 – Present

- Co-developed a real-time social video platform that enables users to form parties, match by shared interests and communicate through video and live messaging.
- Built responsive interfaces and backend APIs using React, TypeScript, Express, PostgreSQL, Redis and Socket.IO, while migrating video infrastructure from LiveKit to mediasoup.

WannaBet? – P2P Esports Wagering & Social Platform (MVP)

Final-Year Project/Completed

Dublin, Ireland

Nov 2025 – Apr 2026

- Designed and developed a peer-to-peer esports wagering MVP featuring tournament management, real-time messaging and a transaction-safe wallet and escrow system.
- Implemented the platform using React, TypeScript, Express, PostgreSQL, Prisma and Redis, with automated testing, Docker, GitHub Actions and AWS-based evidence storage.

EDUCATION

Technological University Dublin

B.Sc. (Hons) Computer Science - **Second Class Honours, First Division (2:1)**

Dublin, Ireland

Sept 2022 – May 2026

- Related Coursework:** Artificial Intelligence, Machine Learning for Data Analytics, Advanced Security, Cloud Computing, Enterprise Application Development, DevOps, Database Administration, Networking Programming, Systems Integration, Mobile Software Development.

ACTIVITIES AND LEADERSHIP

Victory Church

Youth Lead

Dublin, Ireland

Aug 2019 – Present

- Actively lead youth programmes, coordinate activities and mentor participants while supporting an inclusive community environment.
