EDUCATION

Technological University Dublin

Dublin, Ireland

B.S. in Computer Science - **Second Class Honours, First Division (2:1)**.

Expected Graduation, Sept 2026

- **Related Coursework:** Artificial Intelligence, Machine Learning for Data Analytics, Advanced Security, Cloud Computing, Enterprise Application Development, DevOps, Database Administration, Networking Programming, Systems Integration, Mobile Software Development.

EXPERIENCE

Amazon

Dublin, Ireland

Software Engineer Intern

Jan 2025 – Jul 2025

- Developed a dashboard-tagging feature using TypeScript, React and AWS Cloudscape/Polaris, enabling customers to organise and categorise their dashboards.
- Built two reusable UI components aligned with AWS design standards and integrated those with existing backend APIs.
- Collaborated across engineering teams through sprint planning, technical discussions and code reviews.
- Performed unit, integration, end-to-end and manual testing, preparing the feature for its planned production release.

Holland & Barrett

Dublin, Ireland

Store Colleague

Sept 2022 - Dec 2024

- Resolved over 200+ customer issues leading to a 15% increase in customer satisfaction scores.
- Solved 1000+ customer problems and guided customers to a suitable solution.
- Managed day-to-day store operations to foster efficient and profitable operations by at least 10%.

PROJECTS

IzRosh – [izrosh.com](#)

Dublin, Ireland

Full-Stack Developer & Project Lead

Aug 2026 – Present

- Coordinated a three-person team in delivering a full-stack e-commerce platform featuring customer accounts, a beat marketplace and session bookings.
- Created the React and TypeScript shopping experience and customer portal, supported by Express, PostgreSQL, Prisma, Redis and shared Zod validation.
- Integrated Stripe payments and tested secure purchase and fulfilment workflows, contributing to deployment, database management and production readiness.

Minglr – [minglr.live](#)

Dublin, Ireland

Co-Founder & Full-Stack Developer

Aug 2026 – Present

- Co-developed a real-time social video platform using React, TypeScript, Express, PostgreSQL and Redis, enabling users to form parties and join video-based matches.
- Built responsive frontend experiences and backend APIs, with Socket.IO powering live messaging, presence tracking and room updates.
- Migrated the video infrastructure from LiveKit to mediasoup after resolving integration limitations, improving control over real-time media handling.

WannaBet? – P2P Esports Wagering & Social Platform (MVP)

Dublin, Ireland

Final-Year Project/Completed

Nov 2025 – Apr 2026

- Analysed and designed a peer-to-peer eSports wagering MVP using React, TypeScript, Express, PostgreSQL, Prisma and Redis.
- Implemented tournament management, real-time messaging and a transaction-safe wallet and escrow system, with Stripe test-mode payments.
- Added automated testing, Docker, GitHub Actions and Render deployment, alongside S3 and CloudFront for evidence storage and delivery.

ACTIVITIES AND LEADERSHIP

Victory Church

Dublin, Ireland

Youth Lead

Aug 2019 – Present

- Orchestrated youth programs, growing participation by 60%, promoting spiritual growth and community service.
- Cultivated a diverse and inclusive environment, enhancing member satisfaction and diversity understanding by 50%.

St Nicholas Of Myra

Dublin, Ireland

Volunteer Work

Feb 2020 – Feb 2020

- Cataloged 5 tailored lesson plans and materials, improving educational content delivery.
- Monitored and operated classroom activities, maintaining a 100% safety compliance rate.

CERTIFICATES

Technological University Dublin & Customer Service
